Color	Hex Code	Usage
Cyan Blue	#22d3ee	Primary accent, CTAs, highlights
Indigo	#6366f1	Secondary elements, accents
Dark Navy	#0a1628	Text, backgrounds, depth
White	#ffffff	Clean backgrounds, contrast

Secondary Colors

Color	Hex Code	Purpose
Dark Cyan	#06b6d4	Hover states, depth variation
Deep Indigo	#4f46e5	Interactive elements
Light Cyan	#e0f2fe	Background tints, subtle fills
Light Indigo	#e0e7ff	Background tints, subtle fills

Color Usage Guidelines

- Use Cyan (#22d3ee) for primary CTAs and interactive elements
- Use Indigo (#6366f1) for secondary actions and visual hierarchy
- Use Dark Navy (#0a1628) as your main text color for readability
- Light tints work best for backgrounds and subtle fills

Typography

Font Family: Inter

Inter is a modern, geometric sans-serif font optimized for screen readability. It pairs perfectly with Floza's tech-forward aesthetic.

Style	Font	Size	Weight	Usage
Display/Heading	Inter	28px	600 Bold	Main headings, hero text
Subheading	Inter	18px	600 Bold	Section headings
Body Text	Inter	14px	400 Regular	Descriptions, paragraphs
Caption	Inter	12px	400 Regular	Labels, metadata, small text

Why Inter?

- ✓ Modern & tech-forward design
- ✓ Exceptional readability at all sizes
- ✓ Clean, minimal aesthetic that complements your flowing logo
- ✓ Perfect for both web and app interfaces
- ✓ Widely adopted by tech companies (Figma, Vercel, etc.)

Design Principles

1. Modern & Connected

Your design should feel flowing and seamlessly connected, just like your logo. Avoid rigid, disconnected elements.

2. Clean & Minimal

Let whitespace breathe. Keep layouts clean and focused. Floza should never feel cluttered or overwhelming.

3. Tech-Forward

Use your cyan and indigo palette strategically to convey innovation, energy, and forward-thinking. These colors should pop, not overwhelm.

Quick Do's & Don'ts

DO:

- ✓ Use Inter for all typography
- ✓ Use cyan (#22d3ee) for primary CTAs
- ✓ Maintain consistent spacing and hierarchy
- ✓ Keep backgrounds clean (white or light indigo)
- ✓ Use dark navy (#0a1628) for text on light backgrounds

DON'T:

- ✗ Don't use serif fonts or other typefaces
- ✗ Don't mix cyan and indigo randomly without purpose
- ✗ Don't use low-contrast text (light text on light backgrounds)
- ✗ Don't apply gradients or effects that muddy the design
- ✗ Don't scale your logo below 1 inch in width
